Ray 'Alone' In King Case

WASHINGTON (UPI) — The Justice Department has concluded after months of investigation that James Earl Ray acted alone in assassinating the Rev. Dr. Martin Luther King Jr., UPI learned today.

Reliable sources said the conclusion is contained in a 148-page report prepared at the direction of former Attorney General Edward Levi.

Publication of the report has been withheld apparently because of the Justice Department's concern not to appear to be interfering in current House attempts to authorize a special committee to reopen the investigation of the murders of Dr. King and John F. Kennedy.

The department declined to comment on the investigation report.

The House scheduled debate today on reconstituting its Select Committee on Assassinations, which technically died at the end of the last Congress Jan. 3. Pgh. Press 2/2/77
